TASK 3

-User story for Twitter:

As a non-paid user, I want to be able to write longer tweets, so that I can give a full opinion without worrying about the 280 character limit.

-User story for Youtube

As a creator with few subscribers, I want youtube to recommend content creators with few subscribers on the home page, so that those creators can be found by more viewers.

-User story for Facebook

As a video editor, I want to be able to fully edit the video after upload and not the few options facebook gives, so that I don't have to rely on another program and I can do it on the site itself.

-User story for Google

As a common user, I want to be able to run multiple searches simultaneously on the same page, so that I can make comparisons and don't have to keep so many tabs open or redoing searches over and over.

TASK 4

Prime Objective of Twitter:

-Provide a platform for users to communicate sharing short messages, twitter aims to be a public forum for discussion, as their mission statement reads:

“We serve the public conversation”

Prime objective of Youtube:

-Provide a platform for users to share, discover and watch videos. Their mission statement reads: "give everyone a voice and show them the world"

Prime objective of Facebook:

-Provide a platform for people to connect, communicate, and share content with each other. Their mission statement is:

"Give people the power to build community and bring the world closer together"

Prime objective of Google:

-As their mission statement: "Organize the world's information and make it universally accessible and useful"

Google's goal is to provide users with the most relevant and accurate information possible, and to help them access and use information more effectively.
